Good Afternoon: I received a follow up call from Chris Brasco. Noah Meissner was also on the call (silently). Due to the dollar value and exposure of this issue to the surety, the proposed resolution(s) have to be considered by many at various levels before a decision is made. This process is going to go into next week. NAS reiterates understanding our concern and will continue to keep the lines of communication open. GSA is encouraged and welcomed to call Mr. Brasco at any time. He too will continue to contact me to provide status updates.

Thank you,

Good Morning Mr. McKee/Mr. Meissner: Thank you for having Chris Brasco reach out to me on behalf of NAS regarding the matter. He has confirmed that NAS is aware of the importance of this issue to GSA and the importance of maintaining communication. Mr. Brasco conveyed that NAS is considering several solutions at the moment, however, he was not privy to discuss any that this time. Mr. Brasco has encouraged me to call him at any time and that he will contact me later today to provide an update.

Thank you again,

Good Morning Mr. Meissner and Mr. McKee: I have left voice mail messages for you both this morning as a follow up to letters sent 7/30/20 to obtain status regarding the Project Superintendent, Ordered Materials, and HVAC Requirements on the 1800 F Collocation Project. I have also reached out to Ms. Tina Manisko, as instructed on Mr. McKee's greeting message.

If a scheduled conversation is preferred I am available all day today, however before noon would be best.

I look forward to speaking with either or both of you today.

Thank you,
